## AIShield AI Security

Enterprise ready SaaS Product for secure and trustworthy AI

## AIShield.GuArdlan

Guardrail for Safe & Compliant enterprise Generative AI

# AIShield: One-stop AI Security Product

An enterprise-ready API-based AI Security Product to protect AI systems of the world across lifecycle and deployment scenarios for any model, framework or attacks.

## Assess

We evaluate your AI/ML models and scan for any vulnerabilities that can be exploited by adversaries prior to deployment.

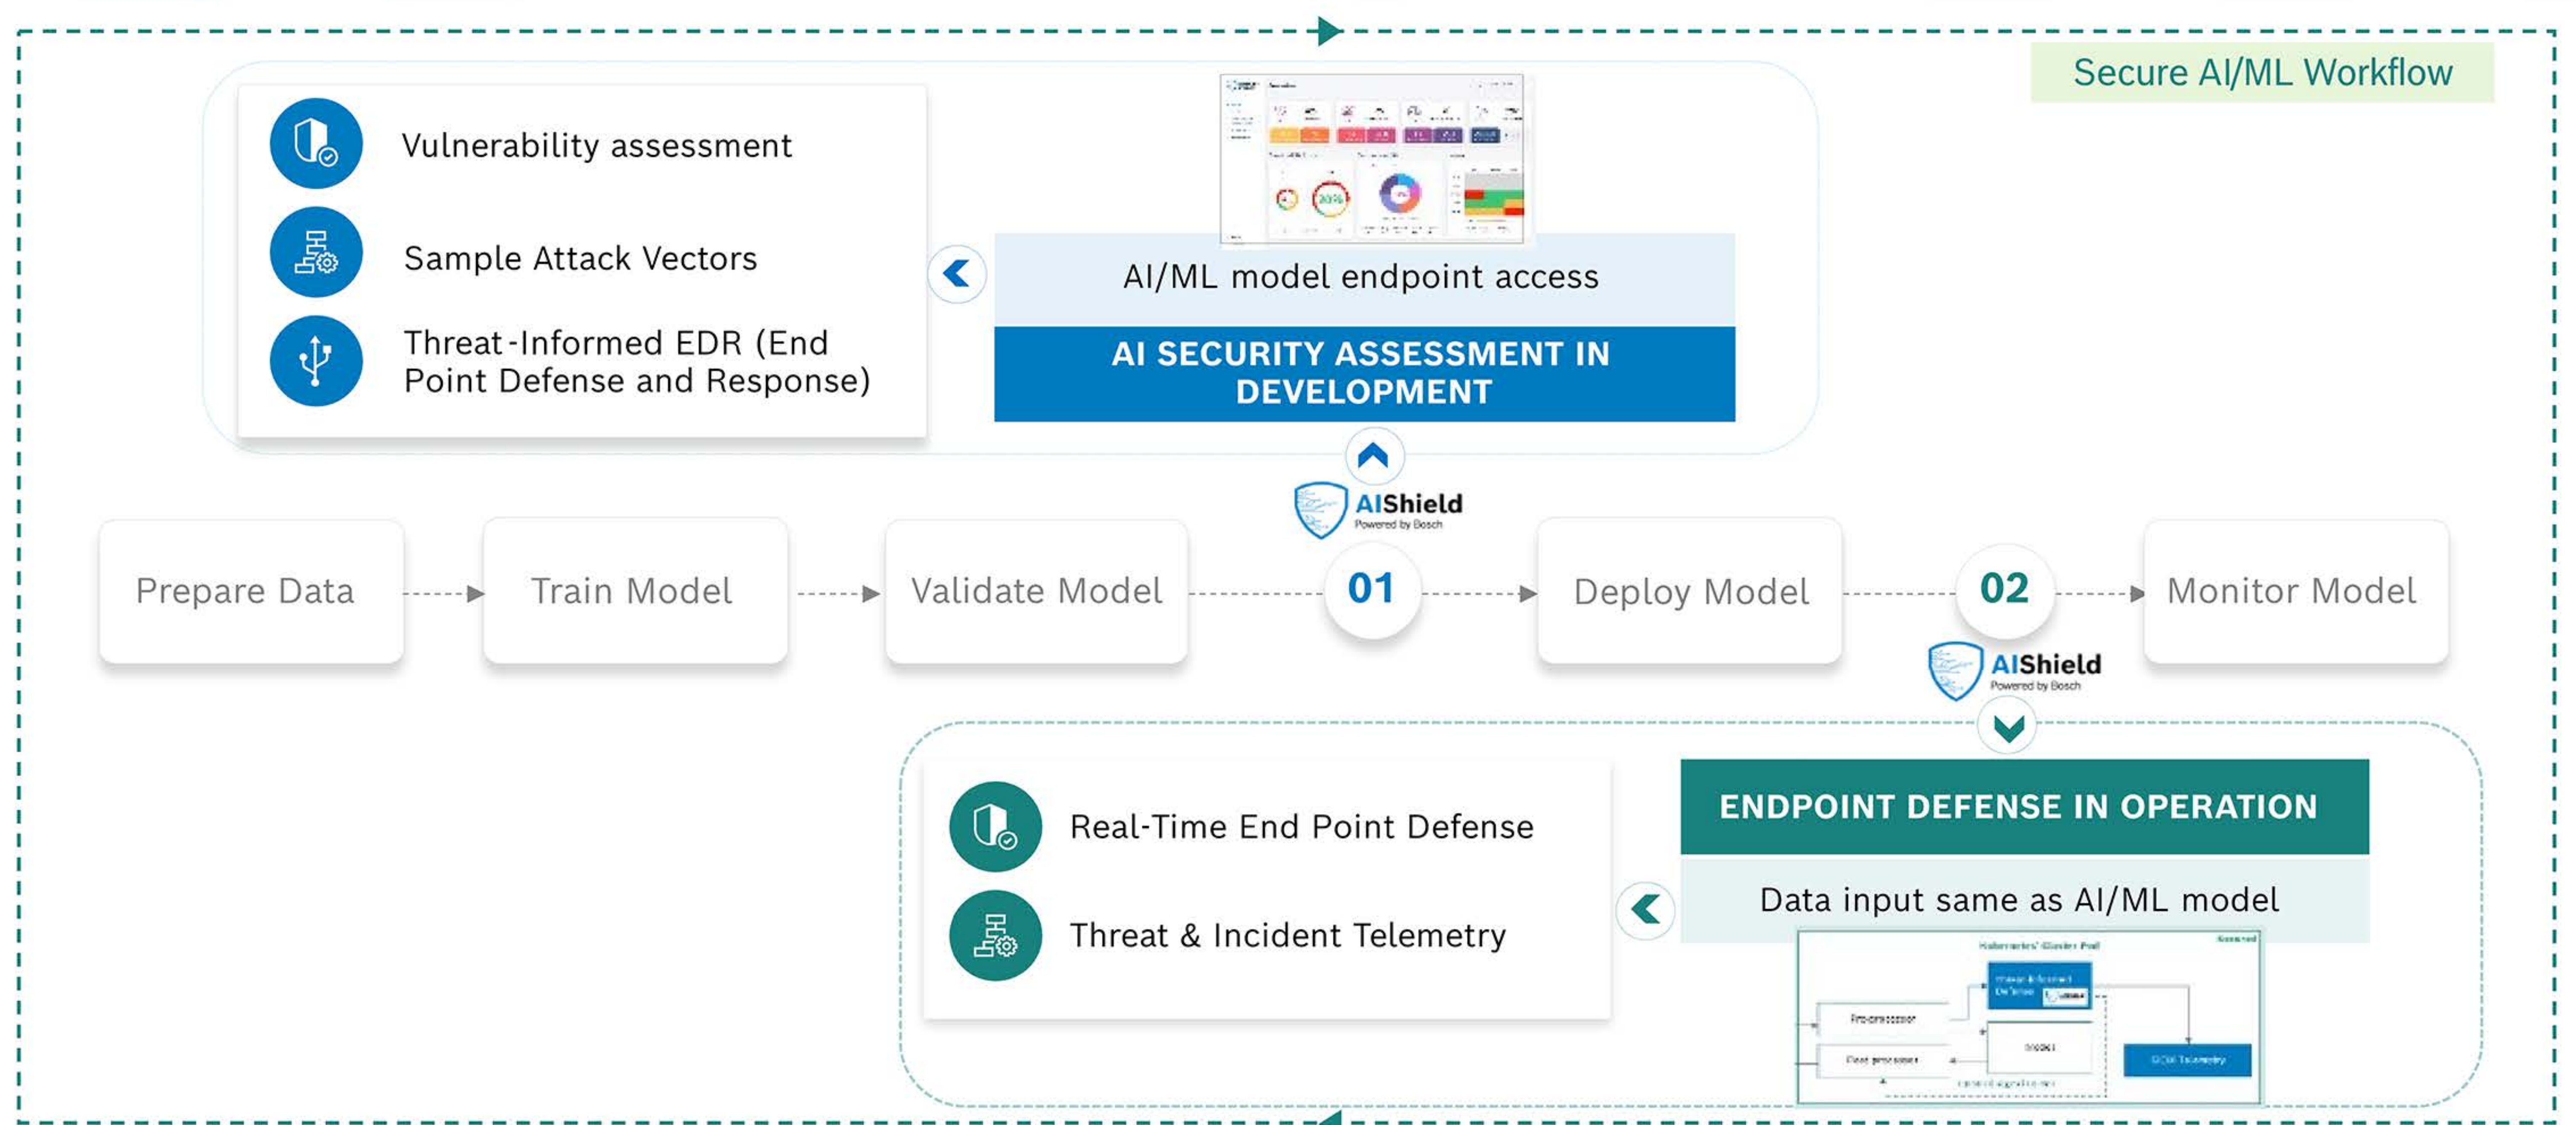

## Detect

Our threat-informed defense model ensures real-time prevention, reporting, and monitoring of new AI attacks in the cloud and on-prem devices.

## Defend

We report security incidents and defend against AI attacks through automated workflows on SIEM/SOAR platforms.

## Benefits of AIShield

- ✓ 7x to 15x ROI
- ✓ 90% reduction in critical vulnerabilities
- ✓ \$250k/model saving
- ✓ Accelerated **Time to value** with Brand & IP protection
- ✓ Assured Regulatory Compliance with full **ZTA**
- ✓ **1.5x** Productivity gain
